

Increased Tax Advantages for 2022

IRS Section 179 and Bonus Depreciation

The Section 179 Deduction limit has been increased to \$1,080,000. A full 30k jump from last year!

- This means that if you buy (or finance) a piece of equipment, you can deduct the Full Purchase Price (up to \$1,080,000) from your gross income.

The 2022 Section 179 deduction threshold for total amount of equipment that can be purchased is \$2,700,000.

- This means that you can purchase more equipment and still have the benefit of the Section 179 deduction.

The BEST advantage for small and mid-sized businesses:

- The full \$1,080,000 deduction can be claimed, all the way to the \$2,700,000 spending cap.
- Once the spending cap limit is reached, the Section 179 deduction will decrease dollar-for-dollar (it will reach zero once \$3,780,000 worth of equipment is purchased.)
- **Take Advantage Now!** With increasing supply-chain issues, it's best to start your Section 179 purchases early.

*Credit & equipment restrictions apply. This program does not assume your company will qualify to take advantage of the IRS Section #179 depreciation schedule which allows rapid first year depreciation of certain assets acquired. The amount of previous depreciation your company may have used may affect your ability to utilize the elections. Please consult your tax advisor or accountant for additional information. Equipment must be purchased and placed in service by 1/1/2023.

For financing information, please call:

EXAMPLE: Enter Cost of Equipment Below

Equipment Cost:

First Year Write-Off:

\$1,080,000 is the max. Section 179 write-off

100% Bonus Depreciation:

On any remaining value above \$1,080,000

Normal 1st Yr. Depreciation:

Depreciation calculated at 5 years = 20%

Total 1st Yr. Depreciation:

Add Section 179 Deduction, Bonus Depreciation and First Year Depreciation

Tax Savings

Assuming Rate of 21%:

Equipment Cost x 21%

1st Yr. Net Cost

After Tax Savings:

Equipment Cost - Tax Savings
